PRINCIPLES OF GREEN CHEMISTRY!!

INDUSTRY PROSPECTUS

WELCOME MESSAGE

Dear Friends,

The **Oil Technologists Association of India (OTAI) – Western Zone** has organized technological conferences and seminars for decades, consistently aiding research scholars, technology providers, and industry professionals in enhancing their skills.

To better serve the Fats & Oils Industry, OTAI – WZ launched the "**FATS & OILS INTERNATIONAL CONFERENCE – EXHIBITION (FOIC)**" in 2019, with events planned every two years. FOIC 2019 was a success, although FOIC 2021 was canceled due to the COVID-19 pandemic. OTAI – WZ returned with FOIC 2023, which exceeded expectations.

FOIC always selects themes relevant to the industry's global context, making it a significant and beneficial event for participants worldwide.

The upcoming **FOIC 2025, scheduled for 6th – 8th March 2025 at JW Marriott, Sahar, Mumbai**, will focus on "**Technological Innovations, Efficiency & Value Addition Following Principles of Green Chemistry.**"

This theme emphasizes value addition in Fats & Oils processing, from seed to oil, protein, and byproducts. Given the industry's thin margins, it's essential to maximize value from all products, whether for human or animal consumption, oleo-chemicals, or biodiesel feedstock. Energy efficiency is also crucial, as it improves process economics and supports environmental sustainability.

Emerging biotech techniques, such as enzyme usage, are set to revolutionize oil processing and byproduct production.

Food safety is another key focus, particularly minimizing undesirable products during processing and the role of packaging materials.

The event will also highlight the latest analytical instruments for quality control and the importance of process automation through PLC/DCS systems for precise control.

FOIC 2025 will be an invaluable event, providing a platform for global industry leaders to discuss and interact through presentations and deliberations.

We look forward to welcoming you to FOIC 2025.

ABOUT OTAI

OIL TECHNOLOGISTS' ASSOCIATION OF INDIA EIGHT DECADES OF JOURNEY WITH PASSION

Founded in 1943 and registered in 1945 under the Societies Registration Act, the **Oil Technologists' Association of India (OTAI)** is headquartered at HBTI, Kanpur, with five zones - Central, Eastern, Northern, Southern, and Western—having zonal offices in Kanpur, Kolkata, Delhi, Hyderabad, and Mumbai to coordinate national and international activities.

OTAI is a collective of Technologists, Academia, Researchers, Scientists, Analytical service providers, Industrialists, Plant and Technology suppliers, Policy makers, and students. Since its inception, OTAI has been dedicated to the dissemination of technical knowledge, knowhow, and the latest in products, processes, and technology through symposia, workshops, refresher courses, lectures, short courses, industrial trainings, and exhibitions. OTAI also actively educates and guides consumers to safeguard their interests.

The Association publishes the quarterly "**Journal of Lipid Science and Technology (JLST)**," a scientific journal of international repute for almost seven decades. OTAI is recognized by the Department of Science and Technology, Govt. of India, as a scientific and research organization promoting R&D in Oils, Fats, and Allied Products.

OTAI is a member of key Government Committees that set standards and policies in its field and is represented on national committees like the Development Council for Soaps and Detergents, Bureau of India Standards, and Food Safety and Standards Authority of India. OTAI collaborates with national and international organizations such as CSIR, ICAR, IVPA, SEA in India, and AOCS, JOCS, PORIM, MPOC globally, actively participating in their activities and promoting their events.

Outstanding contributions by member scientists and technologists are recognized annually during the OTAI Annual Convention with prestigious awards.

The Western Zone of OTAI, the largest and most active, has pioneered several national and international events, notably the International Soaps and Detergent Conferences (**ISDC**) and Fats and Oils International Conference (**FOIC**). Launched in 2019, FOIC has become a successful platform for showcasing innovations in vegetable oil processing and allied products, evolving into a business conference.

OTAI extends its best wishes for the success of **FOIC 2025**, organized by the **Western Zone**.

Dr. Rajeev Churi
National President, OTAI
